

Dental Educators on the **Move**

A joint **ADEE/ADEA** initiative to assist dental educators to progress their careers within their organisations, throughout Europe and further afield. It will provide a platform to further explore, share and advance the skills and competence dental educators need to master for the future.

- **Dental Teaching Competencies**
Defining, agreeing and communicating dental teaching competencies for European dental academics
- **Leadership**
Highlighting the importance of academic leadership and mentorship to career progression
- **Communication**
Helping dental teachers identify and develop communication skills to assist their progression
- **Technology as an enabler**
Assisting dental teachers identify the most appropriate means of using technologies in their teaching
- **Team working**
Sharing and developing team working skills within and beyond the dental teaching community

ADEE and ADEA are pleased to announce the launch of **DENTAL EDUCATORS ON THE MOVE** Special Interest Group.

Evolving out of the Early Career Educators Forum the **Dental Educators on the Move** Special Interest Group will become a valuable resource for all early career dental educators.

Dental Educators on the Move will provide a means of enabling the dental educator evolve and devolve their career through the provision of supporting mechanisms such as;

- Mentorship
- Evidence based teaching

- Discussion and support forums
- Networking and
- Community Support

Commencing in Riga 2014, evolving in Szeged (2015) and culminating in Barcelona in 2015 **Dental Educators on the Move** will initially lead to ADEE certification in dental education skills and a volume of best practice guides and competency's for dental academics.
